Summary of Progress this Report
Established our roles on the team, and established an initial timeline for work on the project. Also did a little bit of research on the tracking system.

Pending Issues
Need to clarify some of the tasks, and functional requirements of the app. Creating documentation for our current idea for the app including screen sketches, and activity diagrams.

Plans for Upcoming Reporting Period
Establish exactly what information we need to be researching, and start researching it. Also to begin the documentation of the of the app.
